Know Your Truth

Welcome to Creating Harmony's Harmonising Times, our overview of the key themes emerging in our much larger, ever evolving community. The new moon occurred very early in the morning (GMT) of the 28th, which means we are almost into the **second quarter** of 2017! How were the first three months? To us it has felt as though much is underway and yet nothing seems to be firmly in place?

This new moon may not help with creating the certainty we all seek for it is **full of contradictions**. Venus with the new moon

brings hope of love, and wealth. Though being retrograde also brings risk of loss and a broken heart.

Other features of this new moon indicate **opportunities** for love, wealth and aesthetics by recognising our relationships within each and each other.

Choose Carefully

The key to handling this complicated situation is to choose your options carefully. Speaking and acting from your **own truth** is the simplest and easiest way to find peace and love in the coming weeks.

As with all new moons this is an excellent moment to make a fresh **start**, turn over a new **leaf** or start any new **project** such as establishing or growing your business. This is best done in the two weeks from the 28th. Which period is favourable for the lone entrepreneur who works tactically. For the moon is guiding us not to lean on others emotionally, not being afraid of working alone.

If you would like help in breakthrough your procrastination and how to achieve what you desire, then schedule a **[complimentary Breakthrough strategy session](#)**? During this we will work together to:

=> Create a crystal **clear vision** for your personal and business life and the "perfect lifestyle" you desire to live.

=> Uncover hidden **challenges** that may be sabotaging your personal growth and perhaps keeping you working too many hours with no freedom or flexibility.

=> Leave this session **renewed, re-energised, and inspired.**

All possibilities are on the table as you put yourself at the centre of plans for **your future**. Old habits, behaviours and beliefs will continue to be questioned as you search for new and expansive ways for your life to evolve.

This new moon is asking all of us: 'What will you do?' or 'What will you be?'; that is, 'Who are you?' This will bring to the surface issues of our **role, identity, and personal initiative**.

There may also be a thought if we do not act or choose, we may **lose love or wealth**. Simply reacting though will not be in our highest good for we are also being given the opportunity to access, one way or another, matters that have been hidden, denied, or ignored by ourselves or others.

This new moon is pushing us to deal with what has been avoided or put aside. As such it may **reveal resources, skills and gifts** we did not know we had. From this understanding may come the chance to perhaps unexpectedly, restore balance in one to one relationships.

For to quote from our previous edition: "True magic comes from knowing magic is what you **create yourself.**"

Prepare to be True to Yourself?

Since the February's solar eclipse Saturn has been pushing us all to **bring an end** to the old stories of our lives, our world, our human experience and simply setting ourselves Free. This was very apparent with those partaking in the Vision Quest we finished on Sunday 26th March.

For we are being drawn to deeply review, write down and be crystal clear about our **values** and what we do want in our lives. Back to the theme mentioned in our last edition - social activism.

Being out in the world and spending time with people, working with community and investing time/energy/conversation with those you love the most will bring you the greatest amount of **fulfilment**. It will also begin to change the foundations of your world and so that of those around you.

Our suggestion is to effect this from a place of **peaceful choice** - your choice not anyone else's.

If you are applying yourself to something that is NOT the "truest" expression of your soul, or you are not applying yourself enough (or at all)..... yes..... crisis. Life is helping us **all to be on our path**, and the farther off you are, the more hurt, pain and suffering there will be. I have been there!

You *feel* soul's guidance, while separate ego's guidance is more in the head based on old thoughts and beliefs. Separate ego does

not desire evolution because it only knows what it has experienced; its task is to keep us safe in that comfort zone. Hence why making **change** is often a struggle, even if procrastination often does not quite feel like that!

Enjoy an Abundant Life for 2017 on?

Because relationships are still to the fore, it is our **sacral** where often we feel the physical or emotional discomfort of change. This appearing as a reminder of the belief(s) we need to address.
