***Willing to Commit to Peace in Your Life?***

***Ready to Accept Good Fortune?***

Welcome to Creating Harmony's Harmonising Times, our overview of the key themes emerging in our much larger, ever evolving community. As we pass through the last days of this waning moon, this is a perfect moment to **focus your efforts** toward being rid of anything you consider has been plaguing you or there appears to be no fortune.

Usually a lack of good fortune in an area of your life means holding onto something you have **outgrown** though need to release it in order to create space for something new to flow in.

Identifying an emotion or feeling that looms large in your mind might lead you to realise that its power is all in your head — and that you can actually address it head-on or, better yet, simply

put it behind you. Then we open up the channels of **good fortune** by letting go of situations that are creating what we desire.

## Wiped your Slate Clean?

New moons provide new beginnings and so if your **slate is clean** then it will be easier to enjoy what is unfolding for you.

As I write this edition all parts of the horizon have fires, some close enough to see the flames, others as large plumes of smoke. This reminds me Mother Earth has been clearing her slate this year with the plethora of fires and storms, which are generated by heat. Fire represents **transformation**, allowing the new to emerge from the old.

This new moon in Libra rises in the early evening (GMT) of 19<sup>th</sup> October. It is continuing the emphasis on balance in partnerships or other relationships, diplomatic communications, and health issues involving the adrenals, sugar levels, and kidneys. It also offers the potential for **great outcomes** from hard work, a conjunction with Jupiter expands all possibilities.

It is an opportunity to make a big leap forward and brings fresh and creative energy into our lives, and more specifically, into our relationships. This is a cycle in which balancing our close personal relationships becomes an urgent desire. Negotiations may be especially effective, as we are inclined to assert our needs in ways that do not offend others. However, the impact of Uranus is likely to bring **resistance from others** and from within, particularly if we feel constrained by partnership.

We are at a **crossroads** involving how we relate to one another and the Earth. That crossroads is coming more into focus with this new moon. Libra is associated with balance, and certainly there is much out of balance at the moment.

Since Uranus is involved, we are looking at powerful and radical **evolutionary change**. It is as though the energies are arriving like a lightning rod - pushing us individually and collectively to reconsider our very old patterns involving power and love.

Though Saturn suggests there will be opportunities to make alternative approaches work for us! With the increasing call for collaboration we have a chance to build our negotiating skills without compromising our principles or needs, and without resorting to appeasement. Being prepared to show **our vulnerability** as we seek to re-balance our relationships; recognising our partners as members of our team rather than adversaries.

## Ready to Make Peace?

This potent Libra energy will provide the chance to make **important changes** in our lives. Some of Libra's "lessons" involve learning to make peace with those around us, as well as in our environment, establishing a sense of order and balance in our lives, and recognising the value of partnerships. This is an **exceptional moment** for the start of productive and emotionally rich new relationships.

Libra has an innate ability for, and love of, synthesising opposites. Peace and harmony are the objectives, though a fine balancing act is necessary as **commitment and effort** will be required.

In terms of enterprise and business this is a really good moment to begin a new collaborative relationship or partnership. Though Uranus will ensure **unexpected change** is a major theme of this moon phase. Be open-minded and flexible to take advantage of some rare opportunities for riches and honour.

Hence you should stay open-minded and flexible to enjoy the **success, honour and riches** offered by the new moon aligning

with the two most fortunate stars in astrology. The key to success is slow and patient plodding, though there will be many temptations and distractions to avoid!

## Willing to Expand?

Until 7<sup>th</sup> November Jupiter is enabling us all to **expand every aspect** of our lives, including the potential to make money. Particularly in helping others to expand their power and potential in the arena of money.

There will also be a theme of wanting to empower and change the way we make **money together**. This is going to have an effect over the coming 14 or so months.

If you are seeking to create harmonious relationships in all aspects of your life, the heart determines our courage and strength as it focuses on how we feel about our internal world—the emotional responses to our own thoughts, ideas, attitudes, and inspiration.

To learn more watch this short YouTube video – [“What do I feel in my heart?”](#) More understanding, case studies and guidance on actions are available in [The Seven Secrets to Living in Harmony](#).

## Fortune Shines on...

Until 7<sup>th</sup> November 2017 there is still **encouragement of enterprise**, money making and understanding the value you create. This combines until the 5<sup>th</sup> with Mercury encouraging empathetic communication which engages and expands yourself and others through your enterprise.

Then on the 23<sup>rd</sup> the Sun joins those planets already in Scorpio. Giving an extra boost and focus on the push for **transformation**.

The day after will highlight any addictive tendencies we may have as well as day to explore any notable dreams.

The 26<sup>th</sup> brings one of the most **fortunate days** of the year. it could also be felt strongly the day before or after. Use the day for anything important, especially involving relationships, intimacy, shared money or other resources, spiritual or psychological studies, or looking for answers to a mysterious situation!

The urge to expand that day will mean anything which is a little out of balance or with our clients or our customers is going to come into focus. The opportunities for expansion if you are **in balance** are immense.

## Learn to Work with Energy

***Working with Energy*** is a practical discovery of energy and how you can connect with it to help yourself, your family, friends and clients. Each person will complete exercises that empower them to understand, receive and give energy. These will enable you to integrate energy work within your daily practice.

☆☆☆ To empower you to cultivate and **use your intuition** we will practice addressing and listening to it. As the intuition communicates in a variety of ways, you will learn how to notice it. Whether as a verbal response, a feeling in your body or a sense of calmness, knowing or anxiety, each can be your intuition. We will also address the role of trust in working with energy.

☆☆☆ To recognise our different **energy bodies** and the nature of their energy. Learning how to work with each one as well as with all at the same moment.

☆☆☆ To recognise through awareness the **impact of emotions** - tight in the physical body when there is a negative emotion such as anger; loose when there is a positive emotion. This affects our world.

This workshop focuses on practical **application and observation**. It builds on what Gregory has taught in *Awaken, Transform, Live; Easily Creating Abundance*; and *Create Your*

*Destiny*. It is essential to have attended one of these to become an accredited Harmoniser.

The next *Working with Energy* is in **Copenhagen** from 3<sup>rd</sup> to 5<sup>th</sup> November. For details visit [Working with Energy](#) or contact Sofia at: [sofiastefans@gmail.com](mailto:sofiastefans@gmail.com).

## **And so the Sensuous Full Moon**

November puts **words and meanings** in the spotlight as information becomes a commodity, accessible to everyone. We have talked about "the information age" for decades, though it has not really started yet. That distinction goes to this year.

*4<sup>th</sup> November brings the full moon. It is in Taurus and has a **sensuous and empathic** feel, a good moment for a massage etc.! It also has healing hands and green fingers. It wants to make things as perfect as possible. Meaning in relationships it will be necessary to guard against putting partners on a pedestal, despite all the affection and care.*
